TOP TEN REASONS TO SUPPORT LIBRARIES

1. Public libraries are partners for vibrant and educated communities. They provide resources, services and programming that help make their communities attractive, vital places for business and residents.

2. Libraries are places of opportunity. They help people of all ages and backgrounds lead better, more satisfying lives.

3. Libraries are essential for a free people. They protect our right to know by providing access to a full spectrum of ideas, resources and services.

4. Libraries preserve our past, inform our present and inspire our future. Libraries connect us with books and materials that help us learn from the past and prepare us for the future.

5. Libraries support lifelong learning. Libraries provide books, classes and other resources to help us keep learning.

6. Libraries are a great American bargain. Check out a couple of novels and audio books, some picture books for the kids, some CDs and DVDs and savings quickly add up. Libraries are used by almost two-thirds of the population.

7. Libraries level the playing field. Libraries provide resources and services that help people of all incomes learn to read, use computers and develop other skills they need to succeed.

8. Libraries are great places for kids. Starting with picture books and story times and continuing with summer reading and other programs, the library opens the door to learning, imagination and wonder.

10. Libraries have librarians! They save time and money by helping to find the best, current information for your needs. Whether you are beginning school or retired, librarians are there to help you make your life more rewarding by offering information to meet your home, work and professional needs.
